

## PRODUCT GUIDANCE SHEET

### HEAVY DUTY ALLOY WHEEL CLEANER

#### OVERVIEW:

Powerful blend of hydrochloric acid, phosphoric acid, detergents and corrosion inhibitors, formulated to give effective removal of brake dust and other grime from vehicle wheels. Cleans the dirtiest wheels rapidly without attacking exposed metal components, unlike many of the other alternatives on the market.

#### APPLICATIONS:

For the cleaning of Steel, Aluminium and Alloy wheels, also safe for use on plastic wheel trims.

#### DIRECTIONS FOR USE:

Can be used neat or diluted up to 1 part product to 8 parts water depending upon degree of soiling and equipment being used.

Apply to wheel using brush or low pressure spray, working from the bottom upwards, agitating with a brush on stubborn stains. Allow to dwell for a maximum of 2 minutes then rinse off thoroughly with clean water.

Under no circumstances should this product be used without prior testing for suitability on an inconspicuous area.

Do not allow to dry on wheels.

#### HEALTH & SAFETY:

NOTE: COSHH assessments should be performed in line with current legislation to determine the required precautions.

#### DANGER

May be corrosive to metals.

Causes severe skin burns and eye damage.

Keep out of reach of children.

Wear protective gloves/protective clothing/eye protection/face protection.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

**See MSDS for further information.**
