PRODUCT GUIDANCE SHEET

SUPER TREADS

OVERVIEW:

A highly technical, non-flammable silicone-based rubber dressing which gives an incredibly long-lasting natural gloss finish. As well as imparting a great shine Super Treads inhibits oxidation to keep rubber looking bright and new. Super Treads also has a water repellent action that helps to reduce dirt build-up between washes.

APPLICATIONS:

Suitable for dressing tyres, mudflaps and exterior rubbers. Also works well on clean plastic bumpers and external plastic trim.

As this is a non-flammable product it can also be used to dress engine bay plastics and rubbers.

Not recommended for rubber mats or flooring as it may cause them to become slippery.

DIRECTIONS FOR USE:

Shake well before use.

Do not apply to a hot surface.

For best results apply to clean, dry surface or remove heavy deposits of dirt with a stiff brush to enable the product to reach the surface of the rubber.

Apply with a brush or sponge and allow to dry.

For tyres it is recommended to allow the dressing to dry completely before moving the vehicle to prevent any throw-off of product onto surrounding surfaces.

Wipe any product spillage/runs from wheels/paintwork with a clean, dry cloth.

HEALTH & SAFETY:

NOTE: COSHH assessments should be performed in line with current legislation to determine the required precautions.

DANGER

May be fatal if swallowed and enters airways.

Keep out of reach of children.

Keep away from heat/sparks/open flames/hot surfaces. — No smoking.

Wear protective gloves/protective clothing/eye protection/face protection.
